NB PRIVATE EQUITY PARTNERS LIMITED

NB PRIVATE EQUITY PARTNERS LIMITED | COMPANY OVERVIEW

ABOUT NBPE

NBPE's objective is to provide investors with the opportunity for capital appreciation (through share price growth) and current income (through a regular dividend). NBPE's strategy is to invest directly into private equity-backed companies, across the capital structure in the best relative value opportunities.

Investment Strategy

NBPE invests in the equity and debt of private equity-backed companies, across the capital structure in the best relative value opportunities. Equity investments are made alongside leading private equity firms. The Company seeks investments across a variety of situations including new buyouts and "mid-life" transactions. The Company also invests in the debt of private equity backed companies, including first and second lien debt and mezzanine. Investments are made both on a primary basis to finance new buyouts and on a secondary basis, typically in credits which may be misunderstood or to take advantage of mispricings or other dislocations.

The Company also has legacy exposure to a mature portfolio of private equity funds which are highly cash generative. Distributions from this portfolio are being reinvested into direct investments over time and NBPE has not made a commitment to a third-party fund since 2011.

About the Company

NBPE is a closed-ended private equity investment company with 48,790,564 class A shares outstanding and 10,000 class B shares outstanding (together, the "Ordinary shares") and 50,000,000 2022 ZDP Shares outstanding. The class A shares are admitted to trading on the Main Market of the London Exchange and Euronext Amsterdam. NBPE has 2022 ZDP Shares admitted to trading on the Specialist Fund Segment of the Main Market of the London Stock Exchange ("Specialist Fund Segment"). Subsequent to the end of the first quarter, on 25 May 2018, NBPE raised an additional 50,000,000 ZDP Shares with a maturity date of 30 October 2024 ("2024 ZDP") which are admitted to trading on the Specialist Fund Segment.

INVESTMENT MANAGER | OVERVIEW

About the Manager

NBPE is managed by NB Alternatives Advisors LLC, the private equity group of Neuberger Berman (the “Manager” or the “Investment Manager”), which manages over \$55 billion of private equity assets across multiple strategies. The Investment Manager has 30 years of investing experience specialising in direct equity investments, income investments, private equity funds and secondary investments and has built relationships with leading private equity fund managers over that time.

The Company is managed by the Investment Manager pursuant to an Investment Management Agreement, dated on 2 May 2017. Subject to the Board’s overall strategic direction and instructions, the Investment Manager makes all of the Company’s investment decisions. The Board has delegated to the Investment Manager the day-to-day management and operations of the Company, including sourcing, evaluating and making investment decisions related to the Company and executing the Company’s business plan. The Investment Manager’s investment decisions are made by its Investment Committee, which currently consists of 11 members with over 318 years of combined professional experience and average 17 years with the firm. The sourcing and evaluation of the Company’s investments are conducted by the Investment Manager’s team of over 140 investment professionals who specialise in direct equity investments, income investments and fund investments. The Investment Manager currently maintains offices in New York, London, Boston, Dallas, Hong Kong, Milan and Bogotá.

About Neuberger Berman

NB PRIVATE EQUITY PARTNERS LIMITED

QUARTERLY REPORT | PORTFOLIO OVERVIEW

Portfolio Summary

153 total investments and total private equity value of \$928.9M

NBPE's portfolio is comprised of three main types of assets: direct equity investments, income investments and fund investments. NBPE is actively investing in direct equity and income investments and the relative weighting of each may vary over time, as the Manager seeks the best relative value opportunities. Fund investments are increasingly a less material portion of the portfolio and are comprised of mature private equity funds, with exposure to hundreds of underlying companies, in realisation mode.

Portfolio Summary	Investments	Fair Value	Adj.Unfunded ¹	Exposure ¹
Direct Equity Investments	84	\$686.3m	\$63.1m	\$749.4m
Income Investments	36	\$142.6m	-	\$142.6m
Fund Investments	33	\$100.0m	-	\$100.0m
Total Private Equity	153	\$928.9m	\$63.1m	\$992.0m

Note: Numbers may not sum due to rounding.

1. Please refer to page 19 for more information on unfunded commitments to funds past their investment period. Actual unfunded commitments and total exposure is \$259.4 million and \$1.2 billion, respectively. Actual unfunded commitments is comprised of \$172.5 million, \$47.3, and \$39.6 million to direct equity investments, income investments, and fund investments, respectively. Actual total exposure is \$858.8 million, \$189.9 million, and \$139.6 million to direct equity investments, income investments, and fund investments, respectively.

QUARTERLY REPORT | PORTFOLIO OVERVIEW

Investment Type

Weighted to Direct Equity Investments

NBPE pursues the securities that the Manager believes present the most attractive risk / return opportunity. Currently the portfolio is weighted to direct equity investments, and 15% of the portfolio is in income investments. Fund investments represent 11% of private equity fair value but the fund portfolio will continue to become a smaller portion of NBPE's private equity fair value as capital is re-deployed into direct investments over time.

Geography

Weighted to North America

NBPE's portfolio is weighted to North American investments. This is the largest private equity market globally and the Manager believes the overall dynamics in this market relative to other geographies have generally offered the most attractive investment opportunities. The Manager is constantly monitoring and evaluating markets globally and may adjust this strategy over time. Approximately 14% of NBPE's portfolio is invested in European companies and 4% in other parts of the world, primarily Asia and Latin America.

Note: Numbers may not sum due to rounding.

QUARTERLY REPORT | PORTFOLIO OVERVIEW

Industry

Broadly diversified across industries

NBPE's portfolio is broadly diversified across industries. The Manager does not set specific industry targets, because the Manager believes this could lead to selecting sub-optimal investments to meet a target. Instead the Manager looks for companies backed by high quality general partners with strong business characteristics in favoured sectors that the Manager believes can grow faster than gross domestic product.

Year of Investment

Diversified by vintage year, with limited exposure to older vintages

Approximately 81% of the portfolio fair value has been invested since 2014 and the portfolio has a limited exposure to older vintages. The Manager believes this is advantageous for a number of reasons. First, older vintages typically contain businesses which underlying sponsors have been unable or unwilling to sell and therefore are often unlikely to be value drivers for a portfolio. Younger vintages in NBPE's portfolio demonstrate the Company's ability to regularly refresh its portfolio into healthier, newer investments. Second, companies in the 2014, 2015 and 2016 vintage years are in many cases progressing well as GPs execute their investment plans. Given that private equity holding periods are typically in the 3 - 6 year range, the Manager believes that companies from these vintage years can continue to drive value in NBPE's portfolio in the coming years. The Manager is very pleased with the investments made in 2017 and the first three months of 2018, but it is too early to assess the execution of the underlying investment theses at this stage.

Note: Numbers may not sum due to rounding.

NB PRIVATE EQUITY PARTNERS LIMITED

QUARTERLY REPORT | DIRECT EQUITY INVESTMENTS

Direct Equity Investments

Made alongside leading private equity firms in their core areas of expertise

NBPE seeks to invest in high quality businesses across a variety of transaction types, including capital for new buyouts and “mid-life” transactions, where investments are made into a sponsor’s existing private equity portfolio companies. The Investment Manager’s team of professionals works alongside the general partners throughout the process and often engages with sponsors early on in a transaction. NBPE is able to leverage the deep networks of the Investment Manager’s team to invest alongside numerous private equity sponsors.

INVEST IN NEW DEALS

CO-INVEST “MID-LIFE” INTO EXISTING PRIVATE EQUITY PORTFOLIO COMPANIES

NEW BUYOUTS

New buyouts are made alongside leading private equity firms and can be across a variety of transaction types including take-privates, buyouts of family businesses, carve-outs or divisional sales.

ADD-ON ACQUISITIONS / GROWTH CAPITAL

Add-on or growth capital typically helps finance an existing company’s growth or M&A strategy.

PARTIAL REALISATIONS / RECAPITALISATIONS

Partial realisations can provide liquidity to existing investors. Recapitalisations provide primary equity capital in order to recapitalise a company’s balance sheet.

NB PRIVATE EQUITY PARTNERS LIMITED

QUARTERLY REPORT | DIRECT EQUITY INVESTMENTS

Portfolio

The direct equity portfolio is comprised of 84 investments with a fair value of \$686.6 million. The portfolio consists primarily of buyout investments and is diversified across industry, vintage year and sponsor. The portfolio includes investments with unique investment angles and the Manager seeks investments which have multiple value creation levers including: strong sponsors and management teams, industry growth or secular trends, growth of new markets or product offerings, operational enhancements or clear exit paths and the potential for shorter paths to liquidity. The portfolio is weighted towards buyout investments and the average age of companies is 3.0 years.

Overview of Q1 2018

NBPE deployed \$10.0 million into two new equity investments and \$6.9 million into follow-on investments during Q1 2018. The new investments are in an undisclosed healthcare services company and Avantor, a global provider of materials for the life sciences and technology industries. Follow-on investments were made into various companies across the portfolio within a variety of industries and geographies. The new direct equity investments are highlighted on page 13.

During the first three months of 2018, the direct equity portfolio distributed \$34.5 million, driven by the full exits of an undisclosed financial services company and ProMach. Additional distributions were the result of ongoing liquidation of public positions including Black Knight Financial Services (NYSE: BKI), Evoqua (NASDAQ: AQUA) and Aruhi (TYO:9984).

Over the past year, the direct equity portfolio has generated a gross IRR of 21.9% driven by strong operating performance and deleveraging at the underlying company level as well as strong exits across the portfolio during the period.

Exit Activity

NBPE received \$28.0 million from two full exits within the direct equity portfolio during Q1 2018 (inclusive of prior realisations and escrow). On a combined basis, the investments generated a 2.0x gross multiple of capital and a 45% gross IRR. The average hold period of the two investments was 2.4 years, while the uplift at exit between the two exits averaged 12% relative to the valuation one quarter prior to the exit announcement.

QUARTERLY REPORT | FUND INVESTMENTS

Fund Portfolio

NBPE’s portfolio includes approximately \$100.0 million of fair value in a portfolio of legacy fund investments. NBPE’s last third party fund commitment was made in 2011 and many of the existing fund’s are 2007 and earlier vintages. As a result the portfolio of 33 funds contains exposure to a large number of mature underlying companies. Over time, these mature companies are being sold, leading to distributions to NBPE. Over the last several years this portfolio has been highly cash generative and a source of strong distribution activity as underlying companies have been sold and portfolios wind down. During Q1 2018, NBPE received \$8.2 million in distributions from fund investments.

The pie chart on the right shows the diversification by vintage year of the fund portfolio.

Fund Portfolio Liquidity and Fair Value Over Time

The table below shows the fund portfolio over time, fair value and cash flows since 2011. Since then, the fund fair value has declined from over \$400 million to approximately \$100.0 million as of 31 March 2018, driven by strong distribution activity. Since 2011, funds have distributed over \$625 million to NBPE, proceeds which have been re-invested into direct investments over time.

Note: Numbers may not sum due to rounding.

QUARTERLY REPORT | VALUATION

Valuation Information

Following the receipt of additional valuation information after 20 April 2018, the publication date of the March monthly NAV estimate, the NAV per Share of \$17.14 was \$0.01 higher than previously reported.¹

NBPE carries direct equity and fund investments based on the most recently available estimate of fair value using financial information provided by the lead private equity sponsor. Debt investments made on a primary basis are generally carried at cost plus accrued interest, if any; debt investments made through secondary market trades are generally carried at market quotes, to the extent available. The chart on the right shows the timing of information used to determine fair value.

Public Positions

As of 31 March 2018, approximately 7% of fair value was held in public securities. The top five public securities exposures are shown below:

- Extraction Oil & Gas (NASDAQ: XOG): \$18.7 million
- Gardner Denver (NYSE: GDI): \$15.5 million
- Evoqua (NYSE: AQUA): \$9.9 million
- Black Knight Financial Services (NYSE: BKI): \$6.6 million²
- ARUHI (TYO: 7198): \$5.2 million

Direct Equity Portfolio Valuation

The table below shows the private and public fair value and the current carrying multiple by vintage year of the direct equity portfolio. The direct equity portfolio was held at a gross carrying multiple of 1.3x current cost as of 31 March 2018³.

Note: Numbers may not sum due to rounding. Please refer to page 28 for a detailed description of the valuation policy.

1. As reported in the Monthly NAV estimate the percent of private equity fair value was held.

2. Valuation is based on the underlying share price of Black Knight Financial Services and includes an additional entity that remains private.

3. Returns are presented on a "gross" basis (i.e. they do not reflect the management fees, carried interest, transaction costs and other expenses that may be paid by investors, which may be significant and may lower returns).

QUARTERLY REPORT | UNFUNDED COMMITMENTS AND CAPITAL RESOURCES

Unfunded Commitments

As of 31 March 2018, NBPE’s unfunded commitments were approximately \$259.4 million. Approximately \$155.6 million, \$4.3 million, \$43.0 million, and \$16.9 million were unfunded commitments to the NB Alternatives Co-investment, NB Healthcare Credit Programs, NB Credit Opportunities Program and Marquee Brands, respectively. Approximately \$11.9 million of unfunded commitments were to funds of funds managed by the Manager and \$27.7 million of unfunded commitments were to third party direct funds. Within the fund portfolio, \$39.6 million of the unfunded commitments are to funds past their investment period. The Manager believes a large portion of this amount is unlikely to be called. However, some amount may be called for fees, expenses and / or follow-on investments.

The Manager analysed the unfunded commitments on an adjusted basis. Unfunded commitments were adjusted by removing unfunded commitments past their investment period, except for reserves which may be called for follow-ons, and amounts which NBPE has the ability to terminate if it so chooses. Following these adjustments, the unfunded commitments were \$63.1 million.

Capital Resources

As of 31 March 2018, NBPE had \$47.6 million of cash and \$95.0 million of available borrowings under the 2016 Credit Facility (as defined on the following page), totaling \$142.6 million of total capital resources. On an adjusted basis this corresponds to excess capital resources of \$79.5 million and a commitment coverage ratio of 226%.

Note: Numbers may not sum due to rounding.

QUARTERLY REPORT | CREDIT FACILITY OVERVIEW

Credit Facility

On 7 June 2016, the Company entered into an agreement with JP Morgan Chase Bank, N.A. (the "2016 Credit Facility") to refinance the 2012 Credit Facility. The 2016 Credit Facility's availability is up to \$150.0 million (including a \$25.0 million accordion whereby the Company is able to increase available borrowings) that expires on 7 June 2021. Beginning in year four, the 2016 Credit Facility carries mandatory amortisation of outstanding balances of 25% per calendar quarter. The 2016 Credit Facility is guaranteed by the Company (the "Parent Guarantor") as well as all of the Company's subsidiaries (except for NB PEP Investments LP (Incorporated), being the borrower under the 2016 Credit Facility) and secured by substantially all of the assets of the Parent Guarantor and its subsidiaries. At 31 March 2018, there was \$55 million borrowed under the 2016 Credit Facility.

Under the 2016 Credit Facility, the interest rate is calculated as LIBOR (based on 3-month LIBOR) plus 3.75% per annum. In addition, under the 2016 Credit Facility, the Company is required to pay an undrawn revolving fee of 1.25% per annum on the daily balance of the unused facility amount (excluding the \$25.0 million accordion). The Company is also subject to certain minimum draw requirements, which if not met, subjects the Company to an additional utilisation fee on any undrawn amounts that are below the minimum draw requirement.

Under the 2016 Credit Facility, the Company is required to meet a maximum over-commitment test, certain loan-to-value ("LTV") ratios, performance event tests and certain portfolio concentration tests.

The maximum over-commitment test is performed on an adjusted unfunded basis, and is designed to limit the amount of unfunded obligations the Company and its subsidiaries may enter into. Adjusted unfunded obligations cannot exceed the lesser of: 1) \$50 million, plus unrestricted cash, plus the undrawn credit facility and 2) 15% of the adjusted market value of eligible investments.

The Company is subject to a number of LTV ratios in order to be in compliance with the 2016 Credit Facility. The drawdown LTV ratio is 25% and the maximum LTV ratio is 40%. If the LTV ratio exceeds 40%, the Company is subject to certain requirements to lower the LTV ratio to the maintenance margin of 35%, within

certain timeframes. If at any time the LTV ratio exceeds 60%, the Company is forced to make prepayments on the loan balance on an expedited basis. Certain cash distributions, including dividends, are subject to an LTV release ratio of less than 35%, unless a performance event has occurred. The performance event test is measured against the level of the S&P 500 index. If the S&P 500 index value falls by 30% in any 120 day period, certain cash distributions, including dividends, are subject to an LTV release ratio of 20%.

The Company is subject to certain portfolio concentration tests which limit the amount of exposure the Company may have in certain areas.

At 31 March 2018, the Company met all requirements under the 2016 Credit Facility.

QUARTERLY REPORT | ENVIRONMENTAL, SOCIAL AND GOVERNANCE

ESG at Neuberger Berman

Neuberger Berman is highly focused on integrating environmental, social and governance issues across its equity, fixed income and alternatives businesses and is continually striving to deepen its commitment to ESG integration both at the individual strategy level, and as a firm as a whole. Since 2012, Neuberger Berman has coordinated these efforts through the ESG Committee, chaired by the Head of ESG Investing, Jonathan Bailey. This committee includes the firm's President and CIO-Equities, Joe Amato, and also includes senior representatives from across the firm including private equity. In June 2012, with the help of the committee, Neuberger Berman became a signatory of the Principles for Responsible Investment ("PRI"). Neuberger Berman has reported to the PRI since 2014 and found that the process of reporting has increased awareness to areas where the firm can improve to ensure continual development. In addition to being a signatory to the PRI, Neuberger Berman is a signatory to the U.K. Stewardship Code, Japan Stewardship Code, and the U.S. Investor Stewardship Group. Neuberger Berman is an active supporter and funder of a range of industry groups including US SIF, SRI and CDP, and the Coalition for Inclusive Capitalism. Most recently Neuberger Berman became a founding member of the SASB Alliance.

The firm's Environmental Social Governance Policy provides a broad framework for an approach to ESG integration. This policy is reviewed annually by the ESG Committee, which is responsible for overseeing the ESG integration efforts, setting goals, and reporting on the firm's performance. This ESG Policy is the guideline for formalising and focusing on responsible investment efforts, with the recognition that environmental, social and governance issues have a significant impact on delivering investment results for clients. Neuberger Berman measures success through sustained improvement in ESG expertise and building awareness across investment teams and central research capabilities by offering continuing education on ESG issues and access to an array of ESG-related analytical resources.

The firm's policy statement is disclosed to the public on the firm's website www.nb.com/esg and includes the latest white papers, articles and perspectives on ESG topics from investment

professionals across the firm.

ESG Neuberger Berman Private Equity

NB Private Equity believes that mitigating ESG-related risks may reduce overall portfolio risk and that integrating ESG factors into investment due diligence may lead to a more consistent investment outcome.

ESG factors are an integral part of NB Private Equity's rigorous and resource-intensive due diligence process. NB Private Equity has the ability to diligence a single asset and to ensure that the company and sponsor are appropriately managing ESG risks.

The NB Private Equity investment team works closely with Neuberger Berman's dedicated ESG team to ensure implementation of industry best practices.

APPENDIX | VALUATION METHODOLOGY

Equity

It is expected that most of the investments in which the Fund invests will meet the criteria set forth under FASB ASC 820 Fair Value Measurement ("ASC 820") permitting the use of the practical expedient to determine the fair value of the investments. ASC 820 provides that, in valuing alternative investments that do not have quoted market prices, but calculate NAV per share or equivalent, an investor may determine fair value by using the NAV reported to the investor by the underlying investment. To the extent ASC 820 is applicable to an investment, the General Partner will value the Fund's investment based primarily on the value reported to the Fund by the investment or by the lead investor of a direct co-investment as of each quarter-end, as determined by the investments in accordance with its own valuation policies.

The Fund generally uses the NAV reported by the investments as a primary input in its valuation; however, adjustments to the reported NAV may be made based on various factors, including, but not limited to, the attributes of the interest held, including the rights and obligations, any restrictions or illiquidity on such interest, any potential clawbacks by the investments and the fair value of the investments' investment portfolio or other assets and liabilities. The valuation process for investments categorized in Level 3 of the fair value hierarchy is completed on a quarterly basis and is designed to subject the valuation of Level 3 investments to an appropriate level of consistency, oversight and review. The General Partner has ultimate responsibility for the valuation process and the fair value of investments reported in the financial statements. The General Partner performs initial and ongoing investment monitoring and valuation assessments. In determining the fair value of investments, the General Partner reviews periodic investor reports and interim and annual audited financial statements received from the investments, reviews material quarter over quarter changes in valuation, and assess the impact of macro market factors on the performance of the investments.

Debt

Debt investments made on a primary basis are generally carried at cost plus accrued interest, if any. Investments made through the secondary market are generally marked based on market quotations, to the extent available, and the manager will take into

account current pricing and liquidity of the security.

For primary issuance debt investments, the Manager estimates the enterprise value of each portfolio company and compares such amount to the total amount of the company's debt as well as the level of debt senior to the Company's interest. Estimates of enterprise value are based on a specific measure (such as EBITDA, free cash flow, net income, book value or NAV) believed to be most relevant for the given company and compares this metric in relation to comparable company valuations (market trading and transactions) based on the same metric. In determining the enterprise value, the Manager will further consider the companies' acquisition price, credit metrics, historical and projected operational and performance, liquidity as well as industry trends, general economic conditions, scale and competitive advantages along with other factors deemed relevant. Valuation adjustments are made if estimated enterprise value does not support the value of the debt security the Company is invested in and securities senior to the Company's position.

If the principal repayment of debt and any accrued interest is supported by the enterprise value analysis described above, the Manager will next consider current market conditions including pricing quotations for the same security and yields for similar investments.

For investments made on a secondary basis, to the extent market quotations for the security are available, the Manager will take into account current pricing and liquidity. Liquidity may be estimated by the spread between bid and offer prices and other available measures of market liquidity, including number and size of recent trades and liquidity scores. If the Manager believes market yields for similar investments have changed substantially since the pricing of the security, the Manager will perform a discounted cash flow analysis, based on the expected future cash flows of the debt securities and current market rates. The Manager will also consider the maturity of the investment, compliance with covenants and ability to pay cash interest when estimating the fair value of debt investments.

- the ability of the investments to achieve their objectives;
- differences between the investment objective and the investment objectives of the private equity funds in which the Company invests;
- the rate at which capital is deployed in private equity investments, co-investments and opportunistic investments;
- expected financings and investments;
- the continuation of the Investment Manager as the service provider and the continued affiliation with the Investment Manager of its key investment professionals;
- the adequacy of the Company's cash resources and working capital; and
- the timing of cash flows, if any, from the operations of the underlying private equity funds and the underlying portfolio companies.

In some cases, forward-looking statements may be identified by terms such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "potential," "should," "will," and "would," or the negative of those terms or other comparable terminology. The forward-looking statements are based on the beliefs, assumptions and expectations of the future performance, taking into account all information currently available to the Manager. These beliefs, assumptions and expectations are subject to risks and uncertainties and can change as a result of many possible events or factors, not all of which are known to the Manager or are within the Manager's control. If a change occurs, the business, financial condition, liquidity and results of operations may vary materially from those expressed in the forward-looking statements. Factors and events that could cause the business, financial condition, liquidity and results of operations to vary materially include, among other things, general economic conditions, securities market conditions, private equity market conditions, the level and volatility of interest rates and equity prices, competitive conditions, liquidity of global markets, international and regional political conditions, regulatory and legislative developments, monetary and fiscal policy, investor sentiment, availability and cost of capital, technological changes and events, outcome of legal proceedings, changes in currency values, inflation, credit ratings and the size, volume and timing of transactions, as well as other risks described elsewhere in this report and the prospectus relating to the Company's IPO and the Company's prospectus relating to the ZDP Shares. The foregoing is not a comprehensive list of the risks and uncertainties to which the Company is subject. Except as required by applicable law, the Manager undertakes no obligation to update or revise any forward-looking statements to reflect any change in The Manager's expectations, or any changes in events, conditions or circumstances on which the forward-looking statement is based. In light of these risks, uncertainties and assumptions, the events described by the Company's forward-looking statements might not occur. The Manager qualifies any and all of the forward-looking statements by these cautionary factors.
