Investment Strategy

Actively pursuing equity co-investments and direct yielding investments

- Our intention is that new investments will be predominantly equity co-investments or direct yielding investments
 - Equity co-investments: equity investments alongside premier private equity sponsors in their core areas of expertise
 - Direct yielding investments: debt generating strong cash yields and in many cases additional upside through PIK and / or equity
- NB Alternatives expects that direct investments will comprise a majority of NAV before the end of 2013
- We expect this strategy to reduce the expected duration of our private equity portfolio, increase transparency for shareholders and reduce our overall expense ratio

DIRECT INVESTMENTS: INCREASINGLY SIGNIFICANT¹

Data is pro forma for investments in CoAdvantage and Shelf Drilling and returns of capital from the NB Alternatives Direct Co-investment Program in March 2013, for returns of capital from the NB Alternatives Healthcare Credit Program expected in March 2013 and for a follow-on investment through the NB Alternatives Healthcare Credit Program in March 2013.
