NB Private Equity Partners Limited

Investment Strategy

86% of fair value invested in direct equity of private equity backed companies

NBPE offers direct exposure to a diversified portfolio of private equity investments alongside high quality sponsors with an extra layer of due diligence through Neuberger Berman Private Equity's global investment team and processes. Equity investments are made alongside leading private equity firms in their core areas of expertise by leveraging the deep network of private equity relationships, deal flow and investment expertise of the 200 private equity professionals of Neuberger Berman's \$80 billion private equity platform. The Company invests across a variety of situations including new buyouts and "mid-life" transactions, which are investments into existing private equity sponsor portfolio companies, often to fund an acquisition or to provide partial liquidity to investors.

By leveraging the capabilities of the Neuberger Berman Private Equity platform, the Company seeks exposure to a broad set of private equity managers and companies and provides investors in the Company access which is more typically achieved by large-scale institutional investors with the ability to invest across a wide-range of the private equity universe. The current portfolio includes over 100 direct equity investments made alongside over 50 leading private equity sponsors and represents 86% of the portfolio's fair value, of which approximately 96% of the direct equity investments have no second layer of fees. In addition, NBPE seeks prudent diversification in its equity portfolio across geography, industry, enterprise value, and vintage.

In addition, NBPE's investment strategy is executed on a highly fee-efficient basis and without need for significant long-term unfunded commitments. Typically, co-investments are made on a no management fee and no carried interest basis, resulting in only a single layer of fees (as opposed to the additional management fee and carried interest charges associated with limited partner commitments).

NBPE's objective is to provide investors with the opportunity for capital appreciation (through share price growth) and current income (through a regular dividend).

Since NBPE is a direct investor operating without third party fund investments, it is able to efficiently manage its capital deployment without significant long-term unfunded commitments, which is advantageous to its balance sheet management.

NB Private Equity Partners Limited

Manager Overview

About the Manager

NBPE is managed by NB Alternatives Advisors LLC, the private equity group of Neuberger Berman (the “Manager” or the “Investment Manager”), which manages over \$80 billion of private equity assets across multiple strategies.¹ The Investment Manager has 30 years of investing experience specialising in direct equity investments, income investments, private equity funds and secondary investments and has built deep relationships with leading private equity fund managers over that time. The Manager maintains over 530 active LP fund relationships and has committed approximately \$10 billion annually to private equity over the past three years.²

The Company is managed by the Investment Manager pursuant to an Investment Management Agreement, dated 2 May 2017. Subject to the Board’s overall strategic direction and instructions, the Investment Manager makes all of the Company’s investment decisions. The Board has delegated to the Investment Manager the day-to-day management and operations of the Company, including sourcing, evaluating and making investment decisions related to the Company and executing the Company’s business plan. The Manager’s Investment Committee is comprised of 12 members, with an average of over 30 years of experience. The 12 members of the Investment Committee average 16 years with the firm and all of the Investment Committee members have been with the private equity team for at least 10 years. The sourcing and evaluation of the Company’s investments are conducted by the Investment Manager’s team of over 200 dedicated private equity professionals who specialise in direct equity investments, income investments and fund investments. The Investment Manager currently maintains offices in New York, London, Boston, Dallas, Hong Kong, Milan, Zurich and Bogotá.

About Neuberger Berman

Neuberger Berman, founded in 1939, is a private, independent, employee-owned investment manager. The firm manages a range of strategies—including equity, fixed income, quantitative and multi-asset class, private equity and hedge funds—on behalf of institutions, advisors and individual investors globally. With offices in 23 countries, Neuberger Berman’s team is more than 2,100 professionals. For five consecutive years, the company has been named first or second in Pensions & Investments Best Places to Work in Money Management survey (among

those with 1,000 employees or more). Tenured, stable and long-term in focus, the firm has built a diverse team of individuals united in their commitment to delivering compelling investment results for our clients over the long term. That commitment includes active consideration of environmental, social and governance factors. The firm manages \$339 billion in client assets as of September 30, 2019. Investment Type

Weighted to Direct Equity Investments

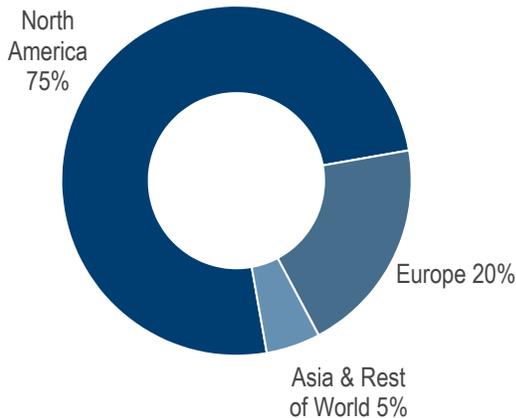

NBPE pursues the securities that the Manager believes present the most attractive risk / return opportunity. Currently the portfolio is weighted to direct equity investments, and 10% of the portfolio is in income investments. Fund investments represent 4% of private equity fair value and the fund portfolio will continue to become an increasingly immaterial portion of NBPE's private equity fair value as these funds wind-down.

Geography

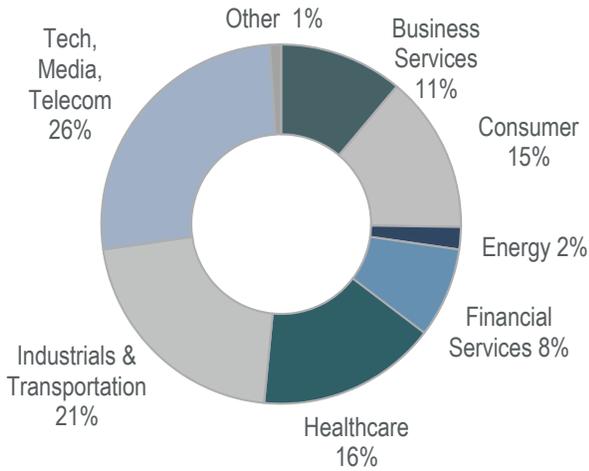

Weighted to North America

NBPE's portfolio is weighted to North American investments. This is the largest private equity market globally and the Manager believes the overall dynamics in this market relative to other geographies have generally offered the most attractive investment opportunities. The Manager is constantly monitoring and evaluating markets globally and may adjust this strategy over time. Approximately 20% of NBPE's portfolio is invested in European companies and 5% in other parts of the world, primarily Asia and Latin America.

Note: Numbers may not sum due to rounding.

NB Private Equity Partners Limited

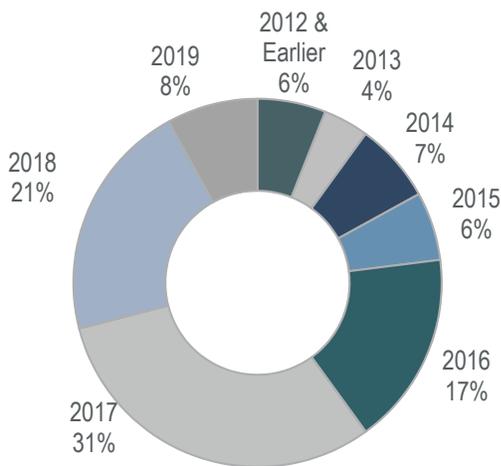

Industry

Broadly diversified across industries

NBPE's portfolio is broadly diversified across industries. The Manager does not set specific industry targets, because the Manager believes this could lead to selecting sub-optimal investments to meet a target. Instead the Manager looks for companies backed by high quality general partners with strong business characteristics in favoured sectors that the Manager believes can grow faster than gross domestic product.

Year of Investment

Diversified by vintage year, with limited exposure to older vintages

Approximately 90% of the portfolio fair value relates to investments made since the beginning of 2014 and the portfolio has a limited exposure to older vintages. The Manager believes this is advantageous for a number of reasons. First, older vintages often contain businesses which underlying sponsors have been unable or unwilling to sell and are often unlikely to be value drivers for a portfolio. Younger vintages in NBPE's portfolio demonstrate the Company's ability to regularly refresh its portfolio into healthier, newer investments. Second, NBPE's portfolio companies in the 2015, 2016, 2017 and 2018 vintage years are generally progressing well as sponsors execute their investment plans. Given that private equity holding periods are typically in the 3 - 6 year range, the Manager believes that companies from these vintage years can continue to drive value in NBPE's portfolio in the coming years.

Note: Numbers may not sum due to rounding.

Portfolio & Performance

As of 30 September 2019, approximately 96% of the private equity fair value was invested in direct investments. The portfolio has been repositioned away from fund investments and we expect the fund portfolio to continue to wind down organically and/or through additional secondary sales over the relatively short term.

During 2019, NBPE's portfolio generated a gross IRR of 12.0%, driven by its direct equity investments. In total, the investment portfolio has performed well year to date, three and five year time periods.

Investment Type	% of Fair value	2019 YTD	Three Year	Five Year
Direct Equity Investments	86.4%	12.8%	16.9%	17.7%
Income Investments	9.6%	8.9%	7.9%	6.5%
Fund Investments	4.0%	4.1%	3.7%	1.6%
Total Portfolio	100%	12.0%	13.8%	11.8%

Direct Equity Investments

During 2019, direct equity investments appreciated in value by \$81.7 million and generated an internal rate of return of 12.8%. The top five investments measured by 2019 value appreciation – Staples, Agiliti, Hilsinger (which has subsequently sold), Petsmart and Omega – in aggregate, appreciated by \$36.6 million. As of 30 September 2019, approximately \$64.2 million of NBPE's direct equity portfolio fair value was held in public securities.

Income Investments

Returns in the income portfolio were in line with expectations, driven by the realisation of NBPE's PIK preferred security in Avantor as well as PIK interest accruals in NBPE's PIK preferred security in Verscend.

Fund Investments

Fund investments are "tail-end" positions and as discussed above, are winding down over time. NBPE has 19 legacy fund interests remaining and during 2019 these funds generated \$14.4 million of realisations. The top three largest fund positions appreciated in value by \$2.9 million during the first nine months of 2019. These three positions were not sold as part of the secondary process during 2018 as the Manager believed these funds had the potential for additional value appreciation and / or were expected to produce short term liquidity.

Direct Equity Investments

Made alongside leading private equity firms in their core areas of expertise

NBPE seeks to invest in high quality businesses across a variety of transaction types, including capital for new buyouts and “mid-life” transactions, where investments are made into a sponsor’s existing private equity portfolio companies. The Investment Manager’s team of professionals works alongside the general partners throughout the process and often engages with sponsors early on in a transaction. NBPE is able to leverage the deep networks of the Investment Manager’s team to invest alongside numerous private equity sponsors.

INVEST IN NEW DEALS

NEW BUYOUTS

New buyouts are made alongside leading private equity firms and can be across a variety of transaction types including take-privates, buyouts of family businesses, carve-outs or divisional sales.

CO-INVEST “MID-LIFE” INTO EXISTING PRIVATE EQUITY PORTFOLIO COMPANIES

ADD-ON ACQUISITIONS / GROWTH CAPITAL

Add-on or growth capital typically helps finance an existing company’s growth or M&A strategy.

QUARTERLY REPORT | DIRECT EQUITY INVESTMENTS

30 September 2019 | Quarterly Report

Portfolio

The direct equity portfolio is comprised of 106 investments with a fair value of \$896.4 million. The portfolio consists primarily of buyout investments and is diversified across industry, vintage year and sponsor. The portfolio includes investments with unique investment angles and the Manager seeks investments which have multiple value creation levers including: strong sponsors and management teams, industry growth or secular trends, growth of new markets or product offerings, operational enhancements or clear exit paths and the potential for shorter paths to liquidity. The portfolio is weighted towards buyout investments and the weighted average holding period is 2.7 years.

Overview of 2019 to Date

During the first nine months of 2019, NBPE deployed \$59.8 million into five new equity investments in the healthcare, insurance, technology, industrials and financial services industries and \$15.6 million to existing follow-on investments. Year to date, the equity portfolio has generated a gross IRR of 12.8%, driven by write-ups across the portfolio. In aggregate there were \$117.6 million of unrealised write-ups in the equity portfolio during 2019 and these write-ups were offset by \$35.8 million in unrealised write-downs.

Exit Activity

During the first nine months of 2019, the direct equity portfolio received distributions of \$88.2 million, of which \$58.8 million in aggregate was received from the exits of Berlin Packaging, Assurant (formerly The Warranty Group), Fairmount Minerals, Standard Aero, Hilsinger and Aruhi. Combined these six exits generated a 2.5x gross multiple and a 24% IRR. The additional \$29.4 million of proceeds consisted of dividends and other cash received as a result of partial realisations in Staples, Qpark, West Marine and Lasko.

IPO Activity

In May 2019, Avantor (NYSE: AVTR) completed an IPO and NBPE's junior convertible security converted into common shares. Uber (NYSE: UBER) also completed an IPO during May. In June, Chewy (NYSE: CHWY), a subsidiary of Petsmart, completed an IPO and Chewy's public valuation is reflected in the private valuation of Petsmart.

QUARTERLY REPORT | UNFUNDED COMMITMENTS AND CAPITAL RESOURCES

30 September 2019 | Quarterly Report

Unfunded Commitments

As of 30 September 2019, NBPE's unfunded commitments were approximately \$198.6 million. Of this, \$170.9 million was unfunded to NB Programs, as detailed below:

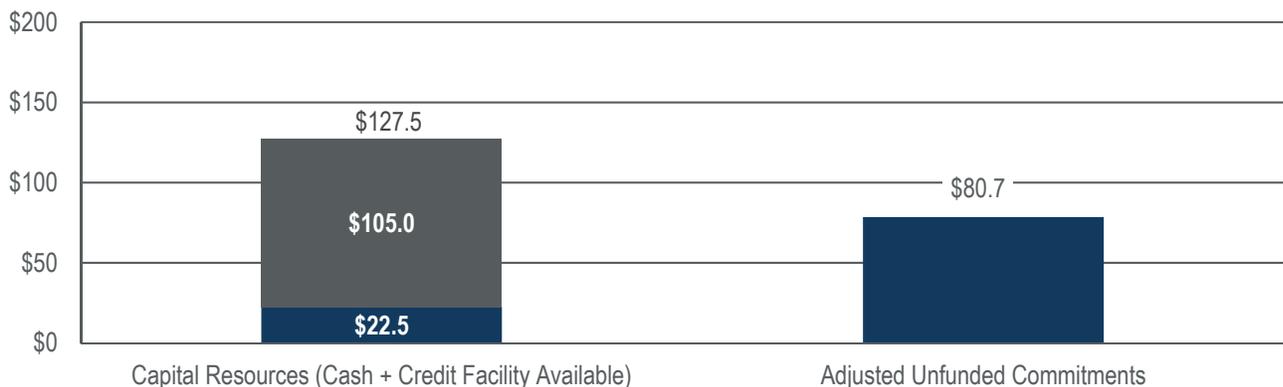

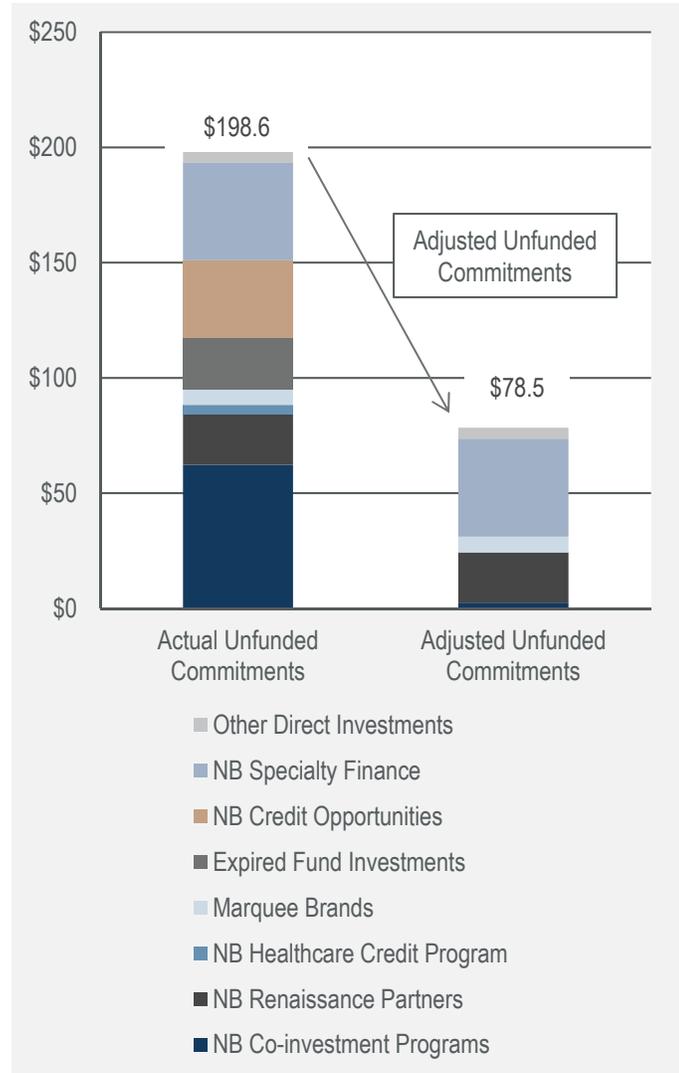

- NB Co-investment Programs¹: \$62.3 million
- NB Specialty Finance Program: \$42.5 million
- NB Credit Opportunities Program¹: \$33.4 million
- NB Renaissance Programs: \$21.8 million
- Marquee Brands: \$6.8 million
- NB Healthcare Credit Program: \$4.1 million

The remaining unfunded commitments were to legacy funds and other direct investments. The Manager believes a large portion of this amount is unlikely to be called. However, some amount may be called for fees, expenses and / or follow-on investments.

The Manager analysed the unfunded commitments on an adjusted basis. Unfunded commitments were adjusted by removing unfunded commitments past their investment period (adjustment of \$44.2 million), except for reserves which may be called for follow-ons, and amounts which NBPE has the ability to terminate if it so chooses (adjustment of \$76.0 million). Following these adjustments, the unfunded commitments were \$78.5 million.

Capital Resources

As of 30 September 2019, NBPE had \$22.5 million of cash and \$105.0 million of available borrowings under the 2016 Credit Facility (as defined on the following page), totaling \$127.5 million of total capital resources. On an adjusted basis this corresponds to excess capital resources of \$49.0 million and a commitment coverage ratio of 162%.

Note: Numbers may not sum due to rounding.

1. Amounts to NB Co-investment Program B and NB Credit Opportunities Program represent cancelable commitments.

NB Private Equity Partners Limited

Credit Facility

JP Morgan Credit Facility

On 7 June 2016, the Company entered into an agreement with JP Morgan Chase Bank, N.A. (the "2016 Credit Facility"). The 2016 Credit Facility's availability is up to \$150.0 million (including a \$25.0 million accordion whereby the Company is able to increase available borrowings) that expires on 7 June 2021. The 2016 Credit Facility is guaranteed by the Company (the "Parent Guarantor") as well as all of the Company's subsidiaries (except for NB PEP Investments LP (Incorporated), being the borrower under the 2016 Credit Facility) and secured by substantially all of the assets of the Parent Guarantor and its subsidiaries. At 30 September 2019, there was \$45.0 million borrowed under the 2016 Credit Facility.

Under the 2016 Credit Facility, the interest rate is calculated as LIBOR (based on 3-month LIBOR) plus 3.75% per annum. In addition, under the 2016 Credit Facility, the Company is required to pay an undrawn revolving fee of 1.25% per annum on the daily balance of the unused facility amount (excluding the \$25.0 million accordion). The Company is also subject to certain minimum draw requirements, which if not met, subjects the Company to an additional utilisation fee on any undrawn amounts that are below the minimum draw requirement.

Under the 2016 Credit Facility, the Company is required to meet a maximum over-commitment test, certain loan-to-value ("LTV") ratios, performance event tests and certain portfolio concentration tests.

The maximum over-commitment test is performed on an adjusted unfunded basis, and is designed to limit the amount of unfunded obligations the Company and its subsidiaries may enter into. Adjusted unfunded obligations cannot exceed the lesser of: 1) \$50 million, plus unrestricted cash, plus the undrawn credit facility and 2) 15% of the adjusted market value of eligible investments.

The Company is subject to a number of LTV ratios in order to be in compliance with the 2016 Credit Facility. The drawdown LTV ratio is 25% and the maximum LTV ratio is 40%. If the LTV ratio exceeds 40%, the Company is subject to certain requirements to lower the LTV ratio to the maintenance margin of 35%, within certain timeframes. If at any time the LTV ratio exceeds 60%, the Company is forced to make prepayments on the loan balance on an expedited basis. Certain cash distributions, including dividends, are subject to an LTV release ratio of less than 35%, unless a performance event has occurred. The performance event test is

measured against the level of the S&P 500 index. If the S&P 500 index value falls by 30% in any 120 day period, certain cash distributions, including dividends, are subject to an LTV release ratio of 20%.

The Company is subject to certain portfolio concentration tests which limit the amount of exposure the Company may have in certain areas.

At 30 September 2019, the Company met all requirements under the 2016 Credit Facility.

ESG

ESG at Neuberger Berman

Neuberger Berman is highly focused on integrating environmental, social and governance (“ESG”) issues across its equity, fixed income and alternatives businesses and is continually striving to deepen its commitment to ESG integration both at the individual strategy level, and as a firm as a whole. Since 2012, Neuberger Berman has coordinated these efforts through the ESG Committee, which is now chaired by the Head of ESG Investing, Jonathan Bailey. This committee includes the firm’s President and CIO-Equities, Joe Amato, and also includes senior representatives from across the firm including private equity. In June 2012, with the help of the committee, Neuberger Berman became a signatory of the Principles for Responsible Investment (“PRI”). Neuberger Berman has reported to the PRI since 2014 and found that the process of reporting has increased awareness to areas where the firm can improve to ensure continual development. Neuberger Berman was awarded the top score (A+) in the most recent UN-backed Principles for Responsible Investment assessment report for our overarching approach to ESG strategy and governance across all major asset classes.

In addition to being a signatory to the PRI, Neuberger Berman is a signatory to the U.K. Stewardship Code, Japan Stewardship Code, and the U.S. Investor Stewardship Group. Neuberger Berman is an active supporter and funder of a range of industry groups including US SIF, SRI and CDP, the Council of Institutional Investors and the Coalition for Inclusive Capitalism. Most recently Neuberger Berman became a founding member of the SASB Alliance.

The firm’s Environmental Social Governance Policy provides a broad framework for an approach to ESG integration. This policy is reviewed annually by the ESG Committee, which is responsible for overseeing the ESG integration efforts, setting goals, and reporting on the firm’s performance. This ESG Policy is the guideline for formalising and focusing on responsible investment efforts, with the recognition that environmental, social and governance issues have a significant impact on delivering investment results for clients. Neuberger Berman measures success through sustained improvement in ESG expertise and building awareness across investment teams and central research capabilities by offering continuing education on ESG issues and access to an array of ESG-related analytical resources.

The firm’s policy statement is disclosed to the public on the firm’s website

www.nb.com/esg and includes the latest white papers, articles and perspectives on ESG topics from investment professionals across the firm.

ESG Neuberger Berman Private Equity

NB Private Equity believes that mitigating ESG-related risks may reduce overall portfolio risk and that integrating ESG factors into investment due diligence may lead to a more consistent investment outcome.

ESG factors are an integral part of NB Private Equity’s rigorous and resource-intensive due diligence process. NB Private Equity has the ability to diligence a single asset and to ensure that the company and sponsor are appropriately managing ESG risks.

The NB Private Equity investment team works closely with Neuberger Berman’s dedicated ESG team to ensure implementation of industry best practices.

Equity

It is expected that most of the investments in which the Fund invests will meet the criteria set forth under FASB ASC 820 Fair Value Measurement (“ASC 820”) permitting the use of the practical expedient to determine the fair value of the investments. ASC 820 provides that, in valuing alternative investments that do not have quoted market prices, but calculate NAV per share or equivalent, an investor may determine fair value by using the NAV reported to the investor by the underlying investment. To the extent practice expedient is applicable to an investment, the Manager will value the Fund’s investment based primarily on the value reported to the Fund by the investment or by the lead investor of a direct co-investment as of each quarter-end, as determined by the investments in accordance with its own valuation policies.

The Fund generally uses the NAV reported by the investments as a primary input in its valuation; however, adjustments to the reported NAV may be made based on various factors, including, but not limited to, the attributes of the interest held, including the rights and obligations, any restrictions or illiquidity on such interest, any potential clawbacks by the investments and the fair value of the investments’ investment portfolio or other assets and liabilities. The valuation process for investments categorized in Level 3 of the fair value hierarchy is completed on a quarterly basis and is designed to subject the valuation of Level 3 investments to an appropriate level of consistency, oversight and review. The Manager has responsibility for the valuation process and the preparation of the fair value of investments reported in the financial statements. The Manager performs initial and ongoing investment monitoring and valuation assessments. In determining the fair value of investments, the Manager reviews periodic investor reports and interim and annual audited financial statements received from the investments, reviews material quarter over quarter changes in valuation, and assess the impact of macro market factors on the performance of the investments.

Debt

Debt investments made on a primary basis are generally carried at cost plus accrued interest, if any. Investments made through the secondary market are generally marked based on market quotations, to the extent available, and the manager will take into account current pricing and liquidity of the security.

For primary issuance debt investments, the Manager estimates the enterprise value of each portfolio company and compares such amount to the total amount of the company’s debt as well as the level of debt senior to the Company’s interest. Estimates of enterprise value are based on a specific measure (such as EBITDA, free cash flow, net

income, book value or NAV) believed to be most relevant for the given company and compares this metric in relation to comparable company valuations (market trading and transactions) based on the same metric. In determining the enterprise value, the Manager will further consider the companies’ acquisition price, credit metrics, historical and projected operational and performance, liquidity as well as industry trends, general economic conditions, scale and competitive advantages along with other factors deemed relevant. Valuation adjustments are made if estimated enterprise value does not support the value of the debt security the Company is invested in and securities senior to the Company’s position.

If the principal repayment of debt and any accrued interest is supported by the enterprise value analysis described above, the Manager will next consider current market conditions including pricing quotations for the same security and yields for similar investments.

For investments made on a secondary basis, to the extent market quotations for the security are available, the Manager will take into account current pricing and liquidity. Liquidity may be estimated by the spread between bid and offer prices and other available measures of market liquidity, including number and size of recent trades and liquidity scores. If the Manager believes market yields for similar investments have changed substantially since the pricing of the security, the Manager will perform a discounted cash flow analysis, based on the expected future cash flows of the debt securities and current market rates. The Manager will also consider the maturity of the investment, compliance with covenants and ability to pay cash interest when estimating the fair value of debt investments.

This report contains certain forward-looking statements. Forward-looking statements speak only as of the date of the document in which they are made and relate to expectations, beliefs, projections (including anticipated economic performance and financial condition), future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts and are subject to risks and uncertainties including, but not limited to, statements as to:

- future operating results;
- business prospects and the prospects of the Company's investments;
- the impact of investments the Company expects to make;
- the dependence of future success on the general economy and its impact on the industries in which the Company invests;
- the ability of the investments to achieve their objectives;
- differences between the investment objective and the investment objectives of the private equity funds in which the Company invests;
- the rate at which capital is deployed in private equity investments, co-investments and opportunistic investments;
- expected financings and investments;
- the continuation of the Investment Manager as the service provider and the continued affiliation with the Investment Manager of its key investment professionals;
- the adequacy of the Company's cash resources and working capital; and
- the timing of cash flows, if any, from the operations of the underlying private equity funds and the underlying portfolio companies.

In some cases, forward-looking statements may be identified by terms such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan,"

"potential," "should," "will," and "would," or the negative of those terms or other comparable terminology.

The forward-looking statements are based on the beliefs, assumptions and expectations of the future performance, taking into account all information currently available to the Manager. These beliefs, assumptions and expectations are subject to risks and uncertainties and can change as a result of many possible events or factors, not all of which are known to the Manager or are within the Manager's control. If a change occurs, the business, financial condition, liquidity and results of operations may vary materially from those expressed in the forward-looking statements. Factors and events that could cause the business, financial condition, liquidity and results of operations to vary materially include, among other things, general economic conditions, securities market conditions, private equity market conditions, the level and volatility of interest rates and equity prices, competitive conditions, liquidity of global markets, international and regional political conditions, regulatory and legislative developments, monetary and fiscal policy, investor sentiment, availability and cost of capital, technological changes and events, outcome of legal proceedings, changes in currency values, inflation, credit ratings and the size, volume and timing of transactions, as well as other risks described elsewhere in this report and the prospectus relating to the Company's IPO and the Company's prospectus relating to the ZDP Shares.

The foregoing is not a comprehensive list of the risks and uncertainties to which the Company is subject. Except as required by applicable law, the Manager undertakes no obligation to update or revise any forward-looking statements to reflect any change in The Manager's expectations, or any changes in events, conditions or circumstances on which the forward-looking statement is based. In light of these risks, uncertainties and assumptions, the events described by the Company's forward-looking statements might not occur. The Manager qualifies any and all of the forward-looking statements by these cautionary factors.
