COMPANY OVERVIEW

NB Private Equity Partners Limited ("NBPE" or "the Company") is a closed-end investment company registered under the laws of Guernsey managed by NB Alternatives Advisers LLC (the "Investment Manager"), an indirect wholly owned subsidiary of Neuberger Berman Group LLC. NBPE invests in private equity funds managed by leading sponsors, including fund of funds managed by the Investment Manager, and makes direct private equity investments alongside leading sponsors ("co-investments"). NBPE's investment objective is to produce attractive returns on its capital from its private equity investments while managing investment risk through portfolio diversification across asset class, vintage year, geography, industry and sponsor.

INVESTMENT MANAGER COMMENTARY

During July, NBPE completed three new investments: a special situations co-investment in the second lien debt and a mid-cap buyout co-investment in the equity of SonicWALL, Inc., a provider of advanced intelligent network security and data protection solutions; and a \$0.7 million secondary purchase of interests in two funds managed by Strategic Value Partners, an investment firm focused on distressed debt, deep value and turnaround opportunities. In addition, NBPE committed an aggregate \$4.0 million to two new mid-cap buyout co-investments.

Including this activity, NBPE invested \$15.2 million into private equity investments and received \$1.3 million of distributions during the month. As a result of this investment activity, the Company's private equity investment level increased to 115% of net asset value at 31 July 2010. During July, approximately 56% of the capital calls were invested in special situations funds and co-investments, 36% were invested in buyout funds and co-investments and 8% were invested in growth equity / venture capital funds. Approximately 83% of the distributions were from buyout funds, 11% were from growth equity / venture capital funds and 6% were from special situations / distressed funds. Most of the distributions received in July were from NBPE's investments in NB Crossroads Fund XVII, Lightyear Capital Fund II and Clayton Dubilier & Rice Fund VII.

As of 31 July 2010, the unaudited net asset value per share was \$9.51, which represents an increase of 0.8% compared to the unaudited net asset value per share of \$9.43 at 30 June 2010. During July, NBPE's portfolio value increased due to \$2.4 million of unrealized gains on public equity securities, \$2.2 million of unrealized gains on credit-related fund investments and \$1.1 million of positive foreign exchange adjustments. In addition, \$1.4 million of net unrealized gains were attributable to the receipt of Q2 2010 valuation information for certain fund investments and private co-investments.

31 July 2010¹**VALUATION METHODOLOGY**

The Company carries its private equity investments on its books at fair value using the best information it has reasonably available to determine or estimate fair value. Publicly traded securities are valued based on quoted prices as of the last day of the relevant period less discounts to reflect legal restrictions, if any, that affect marketability. The Company determines such values for publicly traded securities held directly as well as known public positions held in the underlying private equity investments on a look-through basis. The Company estimates fair value for private interests based on a methodology that begins with the most recent information available from the general partner of the underlying fund or the lead investor of a direct co-investment, and considers subsequent transactions, such as drawdowns or distributions, as well as other information judged to be reliable that reports or indicates valuation changes, including realizations and other portfolio company events. The Company proactively re-values its investments before it has received updated information from the fund manager or lead sponsor if it becomes aware of material events that justify a change in valuation. If the Company concludes that it is probable an investment will be sold, the Company will adjust the carrying value to the amount the Company expects to realize from the sale, exclusive of transaction costs.

NBPE expects to issue its half-yearly report and unaudited financial statements for the period ending 30 June 2010 in late August. The report will include unaudited financial information prepared in accordance with accounting principles generally accepted in the United States. NBPE is required to consider, and will consider, all known material information in preparing such financial report, including information that may become known subsequent to the issuance of this monthly report. Accordingly, amounts included in the half-yearly management report may differ from this monthly report.

LIQUIDITY ENHANCEMENT AGREEMENT

On 21 July 2008, the Company entered into a Liquidity Enhancement Agreement with ABN AMRO Bank N.V. London Branch ("ABN") in order to enhance and strengthen the liquidity in the trading of NBPE's Class A ordinary shares on Euronext Amsterdam by NYSE Euronext ("Euronext Amsterdam"). Under the terms of the Liquidity Enhancement Agreement the Company has granted to ABN sole discretion, in the name and for the account for the Company, to effect (subject to any required shareholder authority, all applicable legal and regulatory requirements and within certain agreed parameters) repurchases and sales out of treasury of the Company's Class A ordinary shares on Euronext Amsterdam. During July 2010, there were no shares repurchased under the Agreement. As of 31 July 2010, there were 51,059,592 Class A ordinary shares and 10,000 Class B ordinary shares outstanding, with 3,150,408 Class A ordinary shares held in treasury.

1. Figures provided are unaudited and subject to change. Certain numbers may not total due to rounding.

2. The diversification analysis by asset class and investment type is based on the fair value of underlying fund investments and co-investments (including unfunded commitments on a total private equity exposure basis). The diversification analysis by year of investment, geography and industry is based on the diversification of underlying portfolio company investments at fair value as estimated by the Investment Manager. The year of investment is calculated at the portfolio company level and is defined as the date of capital deployment into a particular underlying investment. For primary investments and co-investments, the vintage year is defined as the date of the first portfolio investment or the date of the co-investment. For secondary investments, the vintage year is defined as the date of the secondary acquisition. The diversification by year of investment also includes an allocation of net cash flows and valuation adjustments made since financial statements were last received from the investment sponsor. Determinations regarding asset class, investment type, geography and industry, as well as the allocation of unfunded commitments on a total private equity exposure basis, also represent the Investment Manager's estimates. Accordingly, the actual diversification of the Company's investment portfolio and the diversification of the Company's investment portfolio on an ongoing basis may vary from the foregoing information.

This document is not intended to be an investment advertisement or sales instrument; it constitutes neither an offer nor an attempt to solicit offers for the securities described herein. This report was prepared using financial information contained in NBPE's books and records as of the reporting date. This information is believed to be accurate but has not been audited by a third party. This report describes past performance, which may not be indicative of future results. NBPE does not accept any liability for actions taken on the basis of the information provided.

NBPE is registered with the Dutch Authority for the Financial Markets as a collective investment scheme which may offer participations in The Netherlands pursuant to article 2:66 of the Financial Markets Supervision Act (Wet op het financieel toezicht).
