## INVESTMENT MANAGER COMMENTARY

NBPE did not commit to any new private equity funds or invest in any direct co-investments in July. The Company invested an aggregate \$2.2 million in private equity investments and received an aggregate \$0.3 million of distributions during the month. As a result, NBPE’s private equity investment level increased to 111% of total net asset value at 31 July 2009. During July, 81% of capital calls were invested in distressed funds and 19% were invested in growth equity / venture funds. The net cash flow related to buyout funds was positive during July due to a return of capital distribution from one fund.

During July, NBPE’s portfolio value increased due to \$3.9 million of positive mark-to-market adjustments on credit-related fund investments, \$2.1 million of unrealized gains related to public equity securities and \$0.4 million of positive foreign exchange adjustments. In addition, net unrealized gains of \$7.7 million were attributable to the receipt of Q2 2009 valuation information for certain fund investments and private co-investments.

**VALUATION METHODOLOGY**

The Company carries its private equity investments on its books at fair value using the best information it has reasonably available to determine or estimate fair value. Publicly traded securities are valued based on quoted prices as of the last day of the relevant period less discounts to reflect legal restrictions, if any, that affect marketability. The Company determines such values for publicly traded securities held directly as well as known public positions held in the underlying private equity investments on a look-through basis. The Company estimates fair value for private interests based on a methodology that begins with the most recent information available from the general partner of the underlying fund or the lead investor of a direct co-investment, and considers subsequent transactions, such as drawdowns or distributions, as well as other information judged to be reliable that reports or indicates valuation changes, including realizations and other portfolio company events. The Company proactively re-values its investments before it has received updated information from the fund manager or lead sponsor if it becomes aware of material events that justify a change in valuation.

NBPE will issue an interim report and financial statements for the period ended 30 June 2009. The interim report will include financial statements prepared in accordance with accounting principles generally accepted in the United States. NBPE is required to consider, and will consider, all known material information in preparing such financial statements, including information that may become known subsequent to the issuance of this monthly report. Accordingly, amounts included in the financial statements may differ from this monthly report.

**LIQUIDITY ENHANCEMENT AGREEMENT**

In July 2008, NBPE announced the adoption of a Liquidity Enhancement Agreement (the "Agreement") that is intended to further strengthen the liquidity in the trading of NBPE's Class A ordinary shares on Euronext Amsterdam by NYSE Euronext. NBPE entered into the Agreement with ABN AMRO Bank N.V. London Branch ("ABN"), giving ABN sole discretion to effect share repurchases and sales of shares held in treasury on Euronext Amsterdam. During July 2009, there were no shares repurchased under the Agreement. 2. The diversification analysis by vintage year, geography and industry is based on the diversification of underlying portfolio company investments at fair value as estimated by the Investment Manager. The vintage year diversification also includes an allocation of net cash flows and valuation adjustments made since financial statements were last received from the investment sponsor. Determinations regarding asset class, investment type, geography and industry, as well as the allocation of unfunded commitments on a total private equity exposure basis, also represent the Investment Manager's estimates. Accordingly, the actual diversification of our investment portfolio and the diversification of our investment portfolio on an ongoing basis may vary from the foregoing information.
