

NB Private Equity Partners Limited

FUND OBJECTIVE

NB Private Equity Partners Limited ("NBPE" or "the Company") is a closed-end investment company registered under the laws of Guernsey managed by NB Alternatives Advisers LLC (the "Investment Manager"), an indirect wholly owned subsidiary of Neuberger Berman Group LLC.

Our investment objective is to produce attractive returns on capital by investing in direct yielding investments, co-investments and fund investments with a focus on capital efficient strategies while managing risk through portfolio diversification. NBPE pursues diversification across asset class, vintage year, geography, industry and sponsor.

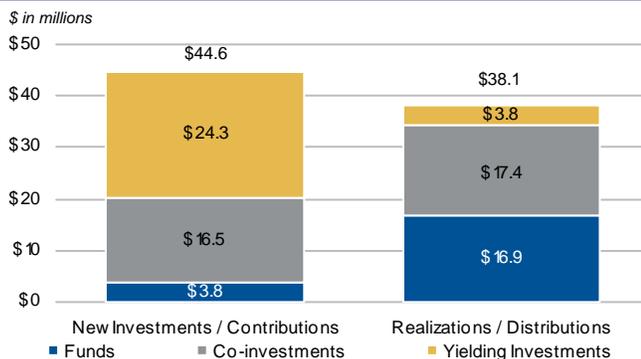

MANAGER COMMENTARY

During December, NBPE funded an aggregate \$6.5 million to the second lien financing in The Petroleum Place, Inc. and to Senior Notes in FR Prime Holdings (Luxembourg). In addition, NBPE funded an aggregate \$19.4 million into two mid-cap buyout co-investments, Deltek and Acteon, through the NB Alternatives Direct Co-investment Program, and one direct yielding investment, a secured term loan in a public healthcare company, through the NB Healthcare Credit Investment Program. During 2012, including the aforementioned new commitments, NBPE has participated in seventeen direct yielding and direct co-investments. During December, NBPE received \$1.9 million proceeds from the realization of one direct yielding investment in royalty notes backed by the sales of a neuropathic pain medication which NBPE invested in January 2011. Including prior distributions, this investment generated a 13.2% IRR and 1.2x multiple. Numbers presented below are pro forma for a \$14.8 million funding to a direct yielding investment and for \$16.1 million of distributions received from the NB Alternatives Direct Co-investment Program both of which were announced in December 2012 and completed in January 2013.

VALUATION METHODOLOGY

The Company carries its private equity investments on its books at fair value using the best information it has reasonably available to determine or estimate fair value. Publicly traded securities are valued based on quoted prices as of the last day of the relevant period less discounts to reflect legal restrictions, if any, that affect marketability. The Company determines such values for publicly traded securities held directly as well as known public positions held in the underlying private equity investments on a look-through basis. The Company estimates fair value for private interests based on a methodology that begins with the most recent information available from the general partner of the underlying fund or the lead investor of a direct co-investment, and considers subsequent transactions, such as drawdowns or distributions, as well as other information judged to be reliable that reports or indicates valuation changes, including realizations and other portfolio company events. The Company proactively re-values its investments before it has received updated information from the fund manager or lead sponsor if it becomes aware of material events that justify a change in valuation. If the Company concludes that it is probable an investment will be sold, the Company will adjust the carrying value to the amount the Company expects to realize from the sale, exclusive of transaction costs.

NBPE expects to issue its 2012 annual financial report in March. The annual financial report will include audited financial information prepared in accordance with accounting principles generally accepted in the United States. NBPE is required to consider, and will consider, all known material information in preparing such annual financial report, including information that may become known subsequent to the issuance of this monthly report. Accordingly, amounts included in the annual financial report may differ from this monthly report.

TRADING VOLUME AND SHARE REPURCHASE ACTIVITY

During the month of December, NBPE's aggregate trading volume on Euronext Amsterdam, the London Stock Exchange, and over-the-counter trading platforms was 342,606 shares, which represents an average daily trading volume of approximately 18,032 shares. The trading volume in December included approximately 42,753 shares traded over-the-counter and not reported on Euronext Amsterdam or the London Stock Exchange.

On 22 October 2010, we launched a new Share Buy-Back Programme in order to begin implementing the Capital Return Policy. The Share Buy-Back Programme is the subject of periodic review by the Board. The Board of Directors has approved an extension of the share buyback program from 30 November 2012 to 28 February 2013. Under the terms of the Share Buy-back Programme, Jefferies International Limited ("JIL") has been appointed to effect on-market repurchases of Shares on behalf of NBPE on Euronext Amsterdam and/or the Specialist Fund Market of the London Stock Exchange. Shares bought back under the Share Buy-Back Programme will be cancelled.

There were no shares repurchased during the month of December. As of 31 December 2012, there were 48,790,564 class A ordinary shares and 10,000 class B ordinary shares outstanding, with 3,150,408 class A ordinary shares held in treasury.

- Figures provided are unaudited and subject to change. Certain numbers may not total due to rounding.
- Other includes realized gains, investment income not classified as yield income, and expenses.
- Net Asset Value and Net Asset Value per Share as of 30 November 2012 are presented pro forma for the closing of NBPE's amended \$200 million credit facility which closed on 12 December 2012. Before this adjustment, Net Asset Value and Net Asset Value per Share would have been \$556.5 million and \$11.40, respectively, at 30 November 2012.
- In November 2012, NBPE announced the conversion of its original \$200 million commitment to the NB Alternatives Direct Co-investment Program to a \$125 million commitment and the future option to invest alongside the NB Alternatives Direct Co-investment Program in up to \$75 million of future co-investment opportunities where there is excess availability. The 31 December 2012 cash is pro forma to reflect distributions received from the NB Alternatives Direct Co-investment Program and the funding of a direct yielding investment which closed on 3 January 2013. Before these adjustments, as of 31 December 2012, cash and cash equivalents would have been \$67.4 million, direct yielding investments would have been \$83.0 million, equity co-investments would have been \$122.4 million, total private equity investments would have been \$555.9 million, net other assets (liabilities) including minority interest would have been \$5.1 million, unfunded private equity commitments would have been \$237.1 million, and total private equity exposure would have been \$793.1 million. 30 November 2012 is pro forma to reflect the conversion. Before this adjustment, as of 30 November 2012, cash and cash equivalents would have been \$75.3 million, equity co-investments would have been \$119.8 million, total private equity investments would have been \$556.9 million, unfunded private equity commitments would have been \$318.5 million, and total private equity exposure would have been \$875.4 million.
- The diversification analysis by asset class and investment type is based on the fair value of underlying fund investments and direct/co-investments. The diversification analysis by year of investment, geography and industry is based on the diversification of underlying portfolio company investments at fair value as estimated by the Investment Manager. The year of investment is calculated at the portfolio company level and is defined as the date of capital deployment into a particular underlying investment. The diversification by year of investment also includes an allocation of net cash flows and valuation adjustments made since financial statements were last received from the investment sponsor. Accordingly, the actual diversification of the Company's investment portfolio and the diversification of the Company's investment portfolio on an ongoing basis may vary from the foregoing information.
- Direct yielding diversification includes equity commitments made alongside mezzanine financings.
